CASE

Operational efficiency in a manufacturing company

An analysis of flow, roles and decision paths followed by a strategy seminar and a 12-month execution plan with monthly follow-up in the management team.

HOW WE DID IT

- Mapping of flow, roles and decision paths
- Strategy seminar with the entire management team
- 12-month execution plan with clear ownership
- Monthly follow-up and adjustment

RESULT

Shorter lead times and a management team with shared direction and clear ownership.

TESTIMONIAL

"They asked the questions none of us dared to ask. We went from a long wish list to a strategy we could actually execute."

CEO, manufacturing company in Jutland
